Work & Experience

- Full-time summers 2024 to present: Sailing Instructor at Wildwind Sailing Holidays, Greece, working as part of a large team, including performing safety responsibilities for guests of all skill levels, ages, and nationalities.
- Part-time 2018 to 2025: Independently organised French Horn, Piano, and Music Theory tuition to school students, planning and executing weekly structured lessons, and providing regular feedback to both students and parents, leading to multiple exam successes.
- Part-time 2021 to 2022: Voluntary website maintenance for Bury Lake Young Mariners Sailing School, working with HTML, CSS, JavaScript, and PHP.
- Part-time 2021 to present: Voluntary sailing instruction, safety responsibilities, and charity organisation at Bury Lake Young Mariners Sailing School, planning structured sessions as part of a small team for youth and adult groups, as well as managing teams of instructors.
- Part-time Q1 2026: Mergers and acquisitions transaction support, under NDA, for the sale of After Party Studios to Sister Group using various Large Language Models (Gemini, ChatGPT, Claude), iDeals Virtual Data Room, Companies House, and constant liaison with the CFO to complete various legal, financial, and technology tasks.
- Part-time 2026 to present: Voluntary Technology Lead for My Turn Music, managing all of the technical operations of the musical education charity.

Education

- **School:** St Clement Danes School & Sixth Form, GCSEs in various areas (9999999988), A Levels in Mathematics, Further Mathematics, Computer Science, and Music (A*A*A*A*).
- **University:** University of Manchester, BSc in Computer Science (First-Class predicted).

Skills & Achievements

- Proficient in Python, Java, and web development languages, as well as RISC-V assembly. Proficient in Linux (and other Operating System command-line interfaces) and Git. Experienced using GitHub Copilot (to assist in developing parts of my personal website), among other LLM chatbots and code assistants.
- Trained in Machine Learning through a Cambridge University course, and Data Science module at The University of Manchester, after which I developed multiple logistic regression models, including to identify offside offences in professional football.
- Composed and organised music for a 300-person ensemble, performed in Central London to an audience of 300 people. Created and led rehearsals for brass bands and barbershop choirs, arranging music and structuring rehearsals. Led the sound design and production team for a student film titled 'The People You Meet At The Dentist', as well as writing and organising the recording of the original score accompanying the film.

Certifications & Qualifications

- ABRSM Grade 8 Practical Exam in French Horn (Distinction)
- Gold Duke of Edinburgh's Award
- RYA Senior Instructor Certification
